

- Terroir :** The Terroir is made up of clay and limestone typically from the High Valley of the Aude River area and the altitude is about 400m high. Our Chardonnay vines are facing the Pyrenees Mountains and well exposed to sun and winds which create a micro-climate. It provides a long maturation of the grapes and some extraordinary condition to contribute to the outstanding wine. Terres Amoreuses is an old Chardonnay vine, planted in the early 70's and surely one of the first Chardonnays planted in Languedoc area. The soil is a mix between clay, limestone and schist.
- Climat :** Mediterranean with mountain influences. During the maturation period, the temperature changes radically between night and day (30°C/12°C)
